

RECOMMENDATION LETTER

Elad Schiller
Co-Founder and CTO
CASTOR

June 6, 2023

In support of the THE GLOBAL OUTSOURCING
100 2024 application:

I highly recommend Computools. They are some of the best software developers I ever had the privilege to work with. Among other skills, their project scope and time estimation are very good and when wrong will work around the clock to make the date especially if it has business consequences. Not only are they amazing software developers, but they are also great people to work with.

Best regards,

Elad Schiller
